THE ORIGINAL CARING CRADLE  
THE CARING CRADLE MINI

“ For the first time today, I saw (the Caring Cradle "Mini") when we used it for a micro-preemie who passed away today. **It was advantageous & appropriate for the size of the baby.**

MARIE, RN

“ (The Caring Cradle "Mini") looks beautiful, & I'm sure it is the **perfect size** for perinatal losses and NICU micro preemie losses.

FLORENCE, RN

“ I only got 35 minutes with my baby, so this would have been amazing for me.

DAWN

“ In these **moments of crisis**, hospitals aren't equipped to provide mothers with **the time they need**, which makes them feel more trauma, shock, & grief.

PO Box 93215 Lakeland, FL 33804

## ORIGINAL CARING CRADLE

### BENEFITS & FEATURES OF THE ORIGINAL

The bassinet and cart's simple, modern design includes four easy glide, locking wheels that allow for quiet, secure set up, and ease of movement throughout the hospital environment.

The original Caring Cradle is for full-term losses and babies up to about one year.

The cooling mechanisms are stored securely in the locked section of the cabinet and are never visible to families.

The original Caring Cradle is located in over 150 hospitals in the US, with the first one delivered to Canada and one in Columbia.

Caring Cradle has been a sponsor of and on exhibit at national conferences for the Association of Women's Health, Obstetric, and Neonatal Nurses (AWHONN) since 2017.

The Caring Cradle is a device that offers a more dignified, comfortable way for parents and family to spend time with their baby immediately following loss.

By cooling the precious body of a baby, the natural changes that occur in death are slowed. The removable gel pad is what keeps the baby's body cool. Easy to manage, the gel pad allows parents the freedom to move about the room.

Now parents can spend as much time as they need to say goodbye to their baby who has died.

## CARING CRADLE MINI

### BENEFITS & FEATURES OF THE MINI

A more suitably sized cradle for grieving parents of early-term stillbirth. The Caring Cradle "Mini" gives mothers more time with even the tiniest of lives lost. Our new, smaller cradle is more appropriately sized for infants under 4 pounds.

**More delicate in presentation while providing all the benefits of the original Caring Cradle.**

**SIMPLE  
DELICATE  
CONVENIENT**

### TWO CRADLES WITH SHARED BENEFITS

Complies with hospital equipment standards. Quick & simple to store & setup. Easy to clean.

NO REPLACEMENT PARTS  
NO MAINTENANCE
